

## Ockwells Tack Mat (Low Profile Clean-Off)

### Description

Ockwells Low Profile Clean-Off Tack Mat has been developed to help prevent the transfer of dust and dirt into clean internal areas in commercial, public and residential buildings under construction and refurbishment.

This protection comprises of hard-wearing plastic layers coated in positive adhesive which is non-transferable and anti-microbial.

- 648mm x 800mm standard dimensions
- Each mat is only 4mm thick which enables them to be used under doors or when placed at the entrance to sensitive areas pedestrian traffic is compelled to step-on and step-off the mat
- Each sheet is peeled off individually when it is soiled and no longer effective
- Mats can be laid end to end or side by side to achieve the desired size
- Ockwells Low Profile Clean-Off matting systems have 60 layers per mat

These properties are the Manufacturers' typical values based on the average of several tests. As the installation and handling of this product is beyond our control the user must ensure that the product is suitable for the application. Ockwells cannot accept responsibility for any loss or damage that may occur either directly or indirectly using this product.
